

365 DAY FLEXIBILITY.

EHYMERCAR

HYMER invented the freedom to travel 50 years ago. **Now HYMERCAR is reinventing it.**

In 1961, HYMER opened up a range of travel possibilities unknown at the time with the Caravano panel van. The HYMERCAR takes up this idea and revolutionises mobile travel once more.

Vehicle images from left to right:

A new face in the HYMER family.
For the first time, HYMERCAR is building
on the success of the Volkswagen T5.

Back on board.

Saturday, 4.12 p.m.
Visited seven slopes and learned three
new jumps – always in comfort.

On board again.

Wednesday, 7.45 a.m.
Every wave is different, but the
fun is always just as great.

Discover Cape Town

Each day is unique. Why drive a vehicle that's not?

Great flexibility in the smallest space. With variable **seat combinations** ① plus intelligent storage and living-area solutions, the new HYMERCAR offers you everything you need for a spontaneous surfing trip or a long ski weekend. Thanks to a **space concept** ② that has been redesigned from scratch, every centimetre of the interior is perfectly used.

Cupboards with soft-close hinges ③ and a retractable locking mechanism are just one example of this. This ensures that the interior of the HYMERCAR always has enough space for **boards, skis** ④, **beds** ⑤ and the like. Up to five high-quality **car seats** ⑥ offer maximum comfort during the trip, and the mountable individual seat can be easily taken out if even more people are coming along. That is flexibility that knows no bounds.

Quality all over.
Timeless interior and high-quality surfaces
run through the entire inside space.

Leaving the mountain.

Sunday, 2.14 p.m.
Pure pleasure at 1,800 metres,
not counting the trip.

Leaving the furniture shop.

Saturday, 4.30 p.m.
Shelf goes in, cupboard goes in, chair goes in.
And Tom and Betty too.

Not just a recreational vehicle. Also your freedom vehicle.

Great space for holidays – and every day. With 30 gears up the mountain, then three courses into the evening: thanks to sophisticated **transport solutions** ① and a perfectly integrated **two-hob gas cooker**, ② this is not a problem. In addition to the large doors and the interior concept designed for everyday use, the HYMERCAR also has a proper kitchen with **fridge** ③ and hotplate as well as a **large work surface**. ④ A sink with an integrated **35-litre fresh-water tank** ⑤ and the connected **shower head** ⑥ from the kitchen, together with the attachable **shower curtain**, ⑦ provide a refreshing shower experience during hot weather. HYMERCAR is not just the perfect holiday companion but is also just what you need when the shopping ends up being bigger than expected. The possibilities are at least as diverse as your needs.

A style you can be proud of.
The finest materials, perfectly processed, ensure
a high-quality look.

Off to the summit.

Monday, 7.34 p.m.

Base camp set up. Route set up. Now there's
nothing else between you and the summit.

Off to the first meeting.

Tuesday, 8.55 a.m.

Slept well. Well prepared.
Good meeting.

Discover Sydney

Suitable for everything. Except standing still.

Quick ascent guaranteed. In the HYMERCAR, the way up could not be easier. The beds in the top sleeping area ① are not only extremely comfortable, but also conveniently reached using ② a ladder. Thanks to comfortable, generously sized mattresses, the HYMERCAR driver can enjoy a level of sleeping comfort that they don't find in other recreational vehicles. On the bed measuring 1.50 × 2.02 m, not only do you lie the right way, but also on the biggest bed area in its vehicle category. In the lower area, a highly versatile sleeping and living concept ③ awaits you which enables a wide range of sleeping options (longways, crossways, L-shape) and even offers enough room for restful sleep on business trips. So that notebooks, smartphones and the like are always fully charged, power sockets (battery capacity 160 Ah) ④ are available as standard in all the important corners and ends. The **self-adhesive insulating window inlays** ⑤ provide optimal protection against heat, cold, sun and disturbing lights at night.

③

This is the life.
High-quality surfaces ensure the highest living comfort,
wherever you find yourself.

Fully equipped.

Friday, 8.30 p.m.
Off to the countryside.
Away from the hustle and bustle.

Ready to go out.

Tuesday, 6.55 p.m.
Off to the city –
pure pleasure.

Discover Grand Canyon

The perfect recreational vehicle needs to be diverse. Just like your needs.

Always independent – in the city and the countryside. With the HYMERCAR you have everything you need, whether you are in the thick of it or away from it all. For example, like in the Yellowstone, a **wet room with cassette toilet and shower** ①, for taking a shower now and again on a long holiday or quickly freshening up just before going to the theatre. In the noise-free **absorption fridge** ②, you can take everything you need for a trip to the countryside or an aperitif for a lively evening on the town. The 100-litre capacity of the fresh-water tank will not leave you high and dry, while the Truma Combi 4 gas heater will not give you the cold shoulder. A fixed wardrobe plus **roof-mounted storage cupboards** ③ and **storage spaces** ④ under the beds make the Yellowstone a real space-saving miracle.

Original HYMERCAR accessories

A HYMERCAR ensures maximum individuality. Our original HYMER accessories are the icing on the cake. Available at HYMERCAR trade partners – visit www.hymer-original-teile.com for more information.

Infinitely practical: two chairs with a folding table. The folding storage areas on the sides of the chairs are particularly attractive.

Well arranged: a practical storage and hanging system for optimal organisation.

Everything close at hand: thanks to large zip bags, everything is perfectly stored for big and small alike.

For more depth: even diving gear and special equipment fit perfectly onto the guide rail.

No modifications: thanks to the guide rail, bicycles can be easily loaded and unloaded even with a mounted bed.

Free from view: the surround privacy cover ensures privacy in an instant.

Everything you need: shopping bag with various storage compartments.

Bloodsuckers have to stay outside: mosquito net with built-in entrance door.

Ideal for winter use: perfectly insulated pop-top roof for cosy warm nights.

Well stored: multipurpose box on a practical guide rail.

Nothing gets wet: mounted ski rack on the guide rail.

In any weather: perfect protection against the sun and cold for the driver's cab ...

... and a height-adjustable insulation layer for the rear area.
