## Weltenburg Narrows nature reserve

The **Weltenburg Narrows** nature reserve is a fascinating combination of water, woods, and cliffs that stretch between **Kelheim** and **Weltenburg**. It is best known for the **Danube Gorge**, breathtaking 70-meter-high cliffs that rise steeply up from the **Danube River**. Extremely rare plants, insects, and birds of prey, such as the peregrine falcon, still find a habitat there. With luck, you might even see a colorful kingfisher skimming over the water's surface.

As early as 1840 **King Ludwig I** recognized how stunning the landscape is and personally ensured the preservation of the area by placing it under special protection. **Bavaria's** oldest nature reserve, the **Weltenburg Narrows** was awarded a European Diploma in 1978 and was elevated to **Bavaria's** first National Natural Monument in 2020.

The **Weltenburg Narrows** is a popular hiking destination for both locals and tourists alike. Support us in maintaining this beautiful corner of the earth for future generations to come by following the basic guidelines of the nature reserve during your excursion: Stick to the paths, take your trash with you, and keep dogs on a leash.

## Abensberg and Gillamoos

People like to celebrate in **Abensberg**! The city center, with its magnificent town houses and narrow alleyways along the historical city wall, showcases many festivals and events in summer. The most well-known fair takes place every year on the first weekend of September, always located on large fairgrounds just outside the city gates: **Gillamoos**, **Bavaria's** oldest fair!

## The scent of hops and the art of brewing

It begins in spring when the chestnut trees are blooming: the beer garden season. Experience the quintessential **Bavarian lifestyle** like nowhere else – in a shady beer garden enjoying a regionally brewed beer and a **Bavarian Brotzeit** (cold snacks and fresh bread). Taste the different beer varieties and try your best to describe their flavor profiles more precisely. Depending on the hops' varieties used for brewing, the beers' aroma varies, i.e., with a hint of banana or a note of mandarin. Beer sommeliers and hops experts will happily accompany you into the cultivated world of hops and beer.

The **Kuchlbauer Tower** at **Kuchlbauer's World of Beer** in **Abensberg** pays homage to the culture of beer brewing in **Bavaria**. The colorful tower with its golden dome was designed by none other than the world-renowned artist, **Friedensreich Hundertwasser**.

## Essing and Riedenburg

Both cities seem like something out of a fairytale: Essing is especially picturesque. The houses are nestled in the steep cliffside and the wooden bridge, the **Tatzlwurm**, sways over the water like a mystical creature. And high above all this towers the **fortress ruins of Randeck**. Anyone who hikes up to the ruins is rewarded with a magnificent view! **Riedenburg** is known as the **Three-Castle-City** and is just as extraordinary. The very impressive **Rosenburg Castle** and the ruins of both **Tachenstein** and **Rabenstein** are reminiscent of medieval times with proud knights in shining armor and noble counts. The **Minnesänger Monument**, an homage to medieval lyric- and song writing, guides your way to the boats that welcome you on board. Come and enjoy the enchanting **Altmühltal** from the water!

## Celts, Romans, and knights

Remnants from the **Altmühl** and **Danube Valleys'** former inhabitants date far back in time. Even the Neanderthals populated the caves of the steep limestone cliffs that are part of the Jura massif. In the stalactite cave **Schulerloch** near Essing, a modern wall projection impressively explains the origins of human life. Later, the Celts settled the area and founded **Alkimoennis**, modern day **Kelheim**. On a cycle path along the **Main-Danube canal**, you can explore their history at the 18 stations of **Altmühltal's Archaeological Park**. The Celts traded vigorously with the Romans who were on the other side of the **Limes**, the border between **Ancient Rome** and **Germania**. The remains of the Roman Military Fortress **Abusina** near **Bad Gögging** are part of the **Limes** and have been designated a **UNESCO World Heritage site**! Fortified knight's castles in the **Altmühltal** are majestic reminders from the Middle Ages. **Prunn Castle** is one of the most well-maintained castles in **Bavaria** and at **Rosenburg Castle**, birds of prey excite their audience with spectacular aerial acrobatics in the courtyard.

Our region's most popular sights are the **Hall of Liberation**, built by the King of **Bavaria Ludwig I** and **Weltenburg Abbey**. The Benedictine monastery is the oldest monastic settlement in **Bavaria**. Visiting us is virtually travelling through time!

## Vacation time is family time

Together you can discover the beauty of the forest and conquer enchanted castle ruins, skip rocks over the surface of the Danube from the water's edge, and explore caves: There is so much to experience along our unbeaten paths! And if you want to pick up the pace, its "full speed ahead!" when you visit the **AltmühlBOB** toboggan run. Only a hop, skip, and jump away is **Lake St. Agatha**, where you can spend the day swimming, or you can visit the **Crystal Museum (Kristallmuseum)** and the birds of prey air show at **Rosenburg Castle**. The **Altmühltal Dinosaur Museum** is a must for all those dinosaur fans out there! Appreciate the high-spirited wildlife and fauna in **Vogel- and Tierpark Abensberg** and get ready to fall head over heels at the **Tiergehege**, the petting zoo in **Bad Abbach**.
