The natural surroundings shift from sunny vineyards to shadowy forests. Upland moors and lakes, climbing rocks and orchards, the gentle hills in the east and the Kaiserstuhl in the west are all part of the Black Forest holiday experience, along with broad valleys, narrow gorges, sprawling mountains and towering summits.

More than 300 cities, towns and villages are situated in the region and its surroundings, offering visitors

convenient access to everything from adventure to enjoyment and nature to culture.

The most frequently visited highlights of the Black Forest are towns like Baden-Baden and Freiburg, the Triberg waterfall and the world famous Titisee.

Other attractions of the Black Forest include impressively beautiful and historic towns, the traditional half-timbered houses, romantic castles and palaces, unique churches and monasteries.

The Black Forest is a wonderful place to regenerate. In addition to a vacation and recreation destination, it is the economic and residential home to millions of people. And that's the way things should remain.

Nature Park Hotels and Restaurants

The way to the heart is “through the belly” - the same goes for the love of nature. That means agriculture is needed in the Black Forest. “Nature Park restaurants” procure regional products, thereby supporting local farmers. Hosts who are “Nature Park restaurants” and have their business EMAS certified carry the “Naturpark-Hotel” logo.

The countryside that makes our region so revitalizing has been marked by centuries of intensive utilization and agricultural activity - now we need to preserve it and adjust to modern life.

Black Forest National Park

„A bit wilder“ - that's the Black Forest National Park motto. Two regions of 10,062 hectares were classified as a National Park at the start of 2014: a northern park around Ochsenkopf, and a southern park around Ruhestein. Nature calls the shots here, free to develop without human intervention. A pristine world of flora and fauna is developing here to provide wilderness that nature freaks can discover on guided tours or out on their own.

Nature Parks

More than two-thirds of the over 11,000 sq km region has been designated as a nature park. At 3,940 sq km, the „Southern Black Forest Nature Park“ is the largest in Germany. Together with the neighboring 3,750 sq km „Central/Northern Black Forest Nature Park,“ it constitutes a preservation area that is more than twice as large as Mallorca.

The Central/Northern Black Forest Nature Park's guides offer adventure tours for groups. Particularly exciting: Families can sleep out under the open sky with their children, make camp fires, count stars, and fall asleep to the sounds of the night. 8- to 12-year-olds can actively learn about conservationism as „Junior Rangers,“ or as „Feldberg Trappers“ in the winter.

● Timeless creations

In Bernau

The Swabian-Alemannic carnival, held during the so-called "fifth season" and very distinguishable from the much younger Rhineland carnival, demonstrates just how deeply rooted traditions are among the people of the Black Forest.

The association of Swabian-Alemannic fools' guilds, founded in 1924 in the Black Forest, is the oldest of its kind in Germany. You can experience the history of the Swabian-Alemannic carnival and the various fools' guilds, their masks and "Häs" (costumes) throughout the year in the "Narrenschoopf Museum" in Bad Dürrenheim. Learn more at www.narrenschoopf.de.

Keeping old traditions alive

The Black Forest has been a first-class cultural landscape for centuries. The people of the Black Forest live their traditions with a great sense of pride in their roots and their achievements. This is also reflected in the more than one hundred different traditional costumes that are worn for special occasions and festivals. On almost every weekend of the year, you can experience live folk dance and music in any one of the villages.

Tradition and progress, customs and modern-day life are all closely tied together here in the Black Forest.

From the 17th to the 19th century, the production of glass, clocks, organs and brushes brought modest prosperity to the valleys. Today well-known high-tech, wood-processing, sanitary and industrial firms are

based here. For example, organs used at churches and fairs around the world are built in Waldkirch. Bernau was the site of the first mass production of skis in 1892 and to this day, Bernau woodworkers, known as "Schnefler", are well-known for their wooden houses, furniture, as well as home and restaurant amenities.

More than 350 years of clockmaking are kept alive at the German Clock Museum in the town of Furtwangen. The Jewelry Museum in Pforzheim highlights Black Forest jewelry production. And the Dorotheenhütte in Wolfach demonstrates how glass production has changed over the years. Visitors can create their own mouth-blown vase at one of the last remaining glass manufacturers in the region – or hearken back to the Christmas ornaments and tinsel angels of their youth all year round.

Black Forest adventure

One thing is for certain: The Black Forest is a paradise for all those who want to experience the outdoors actively, especially hikers and cyclists.

With its high mountains and deep valleys, this holiday region boasts many sights worth seeing and excursions worth making for those who want to reach beautiful and interesting destinations quickly and experience them selectively.

At the top of the list is the lake Titisee in the Black Forest highlands. Located 850 meters above sea level and fed by the source of the Feldberg mountain massif, it is one of the largest natural mountain lakes in Germany. If the weather is nice, a trip to the top of the Feldberg at 1493 m is, of course, a highlight on its own.

Another popular destination is the waterfall of Triberg (www.triberg.de), situated on the "Deutsche Uhrenstraße" (German clock route) or reachable with one of the greatest mountain railways in Europe – the Schwarzwaldbahn.

In the open-air museum "Vogtsbauernhof" in Gutach, you can discover how the people of the Black Forest have lived and worked for the last 400 years. You'll also see impressive Black Forest farms, mills and saws, living rooms and barns (www.vogtsbauernhof.org). Discover the culture and history of the region at first hand.

Regardless of your interests or how you choose to travel, you'll find countless welcoming country inns, lodges and cozy cafés on your way!

Germany's region of culinary delights

The culinary delights of the Black Forest region are reason enough to pay us a visit. Whether you're at a starred restaurant or the village inn, our chefs combine the finesse of Baden, Swabian, Alsatian and Swiss cuisine, often with surprising results.

A look at the menu will tell you much about the landscape, the season and the region's love of cooking – tender beef in pepper sauce, "Bibbeleskäs" with "Brägele" (a dish with fresh cheese and sautéed potatoes), roulade of Black Forest trout or saddle of venison served Baden-Baden style. One glance and you won't be able to choose!

Vacationers will find at least one restaurant or inn with a unique

gourmet flair in almost every village or town in the region. And all our restaurants and inns serve up the highest level of comfort and hospitality.

The gourmet experience is enhanced by Baden's superb wines. The 300-kilometer-long Baden Wine Route runs along the Rhine valley and leads the way to wine and champagne tastings at hospitable wineries. The many wine trails are also a great way to discover this beautiful wine country on foot.

Try the local beers, too! Made with fresh Black Forest spring water according to tradition, the beers here are some of the best Germany has to offer. Some have even achieved cult status beyond the borders of our region and many are only available here.

● Naturelovers

On the track „Schluchtensteig“

In amongst the forested mountains in the north, the broad valleys in the centre, and the sunny mountaintops in the south, the Black Forest offers an incredible variety of landscape for walking.

There are over 23,000 kilometres of hiking trails between the Kaiserstuhl and Baar, which are maintained by the Schwarzwaldverein hiking club. Thanks to the navigation system, which is standardised throughout the Black Forest, walkers always know how far they are from their destination, the bus, a train station or walker-friendly pit stops and accommodation.

Whether you want to spend a day enjoying the climate, fresh air and landscape on one of the long-distance hiking trails, or would rather enjoy a relaxed round walk or even an adventurous day tour – the Black For-

est has an almost unlimited range of experiences for active nature lovers.

Sometimes spending some time in the peace and quiet of nature is sufficient; sometimes you want to treat yourself to something special whilst you walk – if this is what you are after, we recommend about 40 “Black Forest Gourmand Trails”.

The “Black Forest Walking Region committee” has recently awarded around 40 premium trails the special “Gourmand Plus” label. “Black Forest Gourmand Trails” are generally between six and 20 kilometres long. This means that less experienced walkers can enjoy the Black Forest’s natural landscape in peace without getting too tired.

The Connoisseur Routes are round walks, meaning that the walks finish close to where they start. Enjoying

what nature has to offer and stepping out into the diverse landscape is combined with special Gourmand Highlights along the way, like “Schnapsbrünnele” (Schnapps fountains) or fruit stations, panoramic benches or loungers for heavenly views and relaxed stops, cultural or culinary highlights.

The Gourmand Trails follow the paths in the Black Forest Network with diamond trail markers of various colors. The aim is to make discoveries.

Lake „Titisee“

The Classic Black Forest Tour

From **Freiburg** head up the Glottertal valley to **St. Peter** with its baroque monastery church. Continue up Kandel mountain, stopping to take in the beautiful panoramic view over the Black Forest and the Rhine valley. For organ lovers the next stop en route is **Waldkirch** with its museum, before continuing via **Elzach** and Oberprechtal on more scenic, but occasionally narrower roads into Gutachtal. Visit the „**Vogtsbauernhof**“ open air museum where over 30 original farmhouses and other buildings commemorate the cultural history of the Black Forest. You'll take the B33 to reach Germany's highest water fall in **Triberg**, rounding off your visit there with another adventure at the Black Forest Museum. Now take the B500 in the direction of Hinterzarten to **Furtwangen** on one of the prettiest trunk roads in the southern Black Forest, with numerous attractive vantage points. The clock museum in Furtwangen is well worth a further digression. Round the day off with a stroll along the promenade in **Titisee**.

Schwarzwald Hochstraße (Black Forest Panoramic Route)

This famous panoramic road from **Baden-Baden** to **Freudenstadt** is a must for every visitor to the Black Forest. The road was built in its current form in 1932, running a length of over 60 km at heights between 600 and 1000 meters and opening up magical views onto the Rhine lowlands all the way to the Vosges mountains. Natural attractions include the Hornisgrinde, which is the highest mountain in the Northern Black Forest at 1,164 m; Mummelsee lake, shrouded in mystery at 1,036 m; the Schliffkopf and Ruhestein nature conservation areas; and Schwarzenbach valley dam. Arriving at Freudenstadt, stroll across Germany's largest market square with water fountains and the city's angular church (1.5-h city tour starting at €75/group, in German). Visit the Kurgarten glass-blowing workshop. Additional highlights: Ride the gondola to Friedrichsturm lookout tower.

Titisee, Feldberg and Schluchsee

Like a magic triangle, these three locations beckon Black Forest visitors and are immediately reachable from Freiburg. The **Titisee**, 2 km in length and 750 m in width, is the largest natural lake within the German low-mountain ranges. Its beach, boat rental and tours make it even more attractive. The crowning glory of the Black Forest mountains is the **Feldberg** with its 1,493 m peak. It is respectfully called "Highness" and has lots to offer, not only during winter. The mountain station is the starting point of many breathtaking hiking tours. Passing through Altglashütten, we reach **Schluchsee**, a 5 square kilometer glacial lake which, following the construction of the dam, became the region's largest lake, and is today the Black Forest's swimming and water sports center.

Excursion to the Black-Forest open-air museum "Vogtsbauernhof"

Coming from Offenburg through Gengenbach (historic old town center), proceed on the B33 towards Hausach and before reaching Gutach you will find the "Vogtsbauernhof" on your right. Here you will discover Black-Forest culture and history. Go back in time. Where the well-preserved "Vogtsbauernhof" formerly stood on wide plains, there are now a multitude of historical buildings from various Black-Forest regions, reviving the past and inviting you to walk through the different cultures. A year-round event program and many event highlights, starting with festivities showing traditional costumes up to a sort of harvest feast, will make your visit of the museum a memorable one. **Open from end of April to start of Nov.**

Baden-Baden – Strasbourg

Visit **Baden-Baden**, the city known worldwide for its baths, recreational value, its congress hall and festivals, on the edge of the Northern Black Forest. You must absolutely visit the spa hotel with the loveliest casino of the world and the spa gardens along the Lichtentaler Allee, once the promenade of the European high nobility. Other attractions you shouldn't miss: the pump room, the theatre, the Brahms house, the Stourdza band, the Russian church and the monastery Lichtental. When driving on the Autobahn A5 toward Basel, you will reach **Strasbourg** in the Alsace in about one hour's time. The tower of the cathedral Notre Dame, one of the most imposing edifices of the Middle Ages, soars from the city center to be seen miles away. The old part of town was declared a World Cultural Heritage Site by the UNESCO. Thanks to its many timbered houses and picturesque quarters of town, such as the quarter of the tanners, of the millers or the fishers, the city has preserved its medieval character.

Badische Weinstraße (Baden Wine Route)

Enjoy a trip through Germany's most delicious destinations - From **Baden-Baden** to **Weil am Rhein** the Baden Wine Route winds its way through some of the **most scenic parts of the Baden wine region** along the Black Forest. The panoramic road connects **numerous wineries** and **characteristic romantic wine-making villages** such as Durbach, Sasbachwalden or Vogtsburg at a length of over 200 km. During your wine tours you may visit private wineries, communal vineyards, famous castles and ruins. Come visit during **harvest season** and get the chance to attend one of the **many wine festivals** held everywhere in the area. Discover walking and cycling routes, educational wine trails and **learn about the winemaking process** at the countless wineries. After your road trip get down-to-earth in **strauswirtschaften**, the historic pop-up restaurants run seasonally by wineries that serve their products with rustic local foodstuffs. Belchen – one of the most picturesque panoramic mountains in the southern Black Forest. With a total of 9 holiday towns at an elevation of between 400 and 1,414 metres, we have a holiday paradise for every time of year. For walkers and nature lovers; for families, active holidaymakers and connoisseurs. A well-sign-posted network of footpaths; comfortable and steep hiking trails lead you through shady forests, to sunny summits with breathtaking views, over narrow pathways and along cool becks. Cosy inns invite you to take a break and enjoy some regional specialities. Bikers can look forward to lots of new challenges, taking on the highest mountains and choosing their favourite route back into the valley. Children can look forward to a great programme of events, as well as numerous excursions in the region to keep boredom at bay. Basel and Freiburg are both nearby and can be reached for free using the Konus guest card. Customs, culture and festivals all invite you to join in. Forested ski runs and descents for both beginners and skilled skiers bring real winter pleasure. Well-prepared ski slopes, winter hiking trails, toboggan runs and snow-shoe walks complete the range of activities available in winter.

Black Forest

Donaueschingen, Hüfingen, Bräunlingen

Altitude: min. 546, max. 950

F10 For contact information of the cooperation members **„Donaueschingen, Hüfingen and Bräunlingen“** please see box below.

Located in the Southern Black Forest Nature Park, these three towns surrounding the source of the Danube invite you to enjoy carefree vacation fun and cultural adventures right in the centre of a mostly untouched natural area.

You will find the princely town of Donaueschingen just where the Danube's journey begins. Stroll through the city centre with its magnificent Art Nouveau architecture or visit the Princely Fürstenberg Palace, its picturesque gardens, the source of the Danube and the Danube confluence. Join a tour through the Fürstenberg Brewery, which offers tastings and information on the well-known beer. Combined with the diverse museums in town, you can experience a comprehensive cultural program. Take advantage of various outdoor sports activities - this is even where the famous Danube Cycle Route begins. On top of that, you can witness international events like the CHI Equestrian Festival or the Donaueschingen Music Festival.

The resort town Hüfingen is situated idyllically alongside the Breg River. The Roman Bath Ruins and the heritage-protected old town as well as the School

Museum take visitors on a journey through history. The traditional Corpus Christi carpet of flowers and the International Ceramic Weeks with Potters Market and Roman Festival draw many visitors. For fun and recreation, visit the "aquari" swimming pool.

The Zähringer town Bräunlingen offers visitors magnificent views from the Black Forest's foothills all the way to the Alps. Go hiking on gentle trails or in wild and romantic ravines, enjoy rural idyll and discover nature on the Hedge Adventure Trail. Feel free to take a break at the Kirnbergsee, probably the warmest bathing lake in the Black Forest. You will find sunbeds, a shallow shore and a large parking lot with pier along the south bank.

Cyclists will find ideal terrain in the region around the Danube's source as well. The well-signposted cycle path network features ten routes and offers great opportunities to enjoy the versatile landscape on the edge of the Southern Black Forest. There are plenty of great shops, cosy cafés and pubs. Our hosts offer a wide range of accommodation, such as private rooms, holiday flats, camping grounds and comfortable hotels.

Event highlights:

- May/June Corpus Christi, 450-m carpet of flowers, Hüfingen
- 2nd September weekend International Potters' Market, Hüfingen
- September International Equestrian Tournament, Donaueschingen
- October Donaueschingen Music Festival
- October Kilbig, Bräunlingen

Horb am Neckar – nature and history in an expansive sink between the Black Forest and the Swabian Alb.

Blessed with a wonderful town silhouette, Horb is an ideal place to visit; be it for a long or short stay. The timber-framed houses, gates and towers along the town walls, the town hall with its famous "Horb picturebook", the Stiftskirche church and the Schurkenturm tower are all relics of the medieval cultural history. A tour of the town is a great way to get an impression of the lovely small town on the River Neckar.

It plays host to many different events, including the annual Music Days with international classical stars, the Maximilian Knightly Games, open-air events at the "Altes Freibad", or the reflective "Horber Advent". Meanwhile, the different museums and varied temporary exhibitions offer cultural interest. The numerous cycle and footpaths allow you to discover the area around Horb and the Neckar Valley.

Welcome to the Black Forest Highlands

The Black Forest Highlands is one of the most picturesque and varied landscapes in Germany. The holiday region around Lake Titisee and the Feldberg entice you with their sunny peaks, refreshing lakes, cool forests and wild canyons.

Wanderlust, adventure and wonderful views of meadows, forests, mountains and lakes are all a guarantee on the Black Forest Highlands hiking trails. Seven premium hiking trails take you over Baden-Württemberg's highest peak – the Feldberg – past waterfalls, along the banks of Lake Schluchsee or across remote goat pastures. **Cyclists** will find their territory on the hills and mountains in the heart of the breathtaking Black Forest landscape. Leisure cyclists can hire eBikes to reach the Black Forest Highlands heights in relaxing fashion.

The cosy huts and mountain inns in the region invite hikers and cyclists to take a well-earned break. The Titisee and Schluchsee are the most famous lakes in the Black Forest Highlands and are interesting places to visit with their boats, promenades and shops.

But the quieter Windfallweiher and the romantic Schlüchtsee also invite you to enjoy relaxing strolls and a refreshing swim.

In the Black Forest Highlands, **families** can enjoy some rest from the hectic of everyday life, can discover mysterious stone circles and grottos, and can visit the wild Feldsee or the mysterious Mathisleweiher with their explorer rucksacks. Furthermore, the Kucky Team is on hand to provide a varied programme of activities for children.

In **winter**, the mist-free peaks of the Black Forest Highlands are a dream for winter sports fans. Besides ski slopes, winter hiking trails, snow-shoe trails and toboggan runs, the Black Forest Highlands is home to the largest and most snow-safe ski region in Baden-Württemberg: the Feldberg.

Holidaymakers can use the **Hochschwarzwald Card** to experience over 100 attractions free of charge. The red guest card is available free of charge for stays of over two nights from over 370 hotels and guesthouses. Guests can use four 18-hole golf courses daily, can drive a BMW i3, can visit the bathing paradise and go on boat trips on the Titisee and Schluchsee lakes, all free of charge. And in winter, you get a ski pass too! **Card**

People greet their guests with a great „Welcome!“ here, and invite them to enjoy cosy togetherness with music and joyous festivals. Pretty little towns, dreamy villages, magnificent old townhouses and homely Black Forest farms, tours through blooming meadows, summery forests, autumnal vineyards or magical, wintry Black Forest peaks: **Enjoy carefree holidays in the Kinzig Valley!**

From horse-riding to dragon-flying; from halfpipes to the Wine Hiking Trail; from family bathing fun to idyllic spots on the edge of the forest; from perfect greens for golfers to perfectly signposted paths for mountain bikers and cyclists – the Kinzig Valley has a whole host of attractions to suit every age group and every interest.

For example, the popular Kinzig Valley Cycle Path is now fully barrier-free and signposted, and is part of the National Park Cycle Path, which incorporates the largest National Park in Germany.

The bright red Bollenhut hat is a symbol of the Black Forest. But it is actually only really at home here in the Kinzig Valley, in the towns of Gutach, Kirnbach and Hornberg-Reichenbach.

The Kinzig Valley is proud of this, along with a number of other traditions. Music from traditional bands, defence league parades and the dances held by the traditional costumed groups are all part of this. Old handicrafts and the deeply rooted traditions of the Alemannic carnival are customs that are upheld here with great care and joy. The Kinzig Valley is a region with an old culture.

The Romans built roads here when they were developing their trade and military routes through Germany. These days, the holiday region in the heart of the Black Forest has many strings to its bow to reveal its cultural treasures to its guests: There are museums and galleries, castle ruins and historical Black Forest farms, lively customs, music ranging from classical to pop, from jazz to folk, and theatre and folklore.

The clean air makes you breathe deeply in the Kinzig Valley. It is also the reason for the many state-accredited climatic health resorts and health spas that can be found in this holiday region.

From individual holidays to group trips, sporting activities and those looking to relax – the holiday options in the Kinzig Valley are as diverse as the landscape and the people who live here.

Lörrach – a charming city in Southern Black Forest
Lörrach is a town of surprising diversity; a lively, loveable and pulsating place between Basel and the Alsace; the Vosges and the Black Forest nearby. With around 49,000 inhabitants, Lörrach is an attractive shopping and cultural venue with great hospitality. Art meetings and a lively scene enrich the atmospheric impression on streets and squares in the town.

Culture and enjoyment are synonyms here, from „Bridge Gallery“ to STIMMEN vocal festival, from Wine Village to Culture Night. Discover art in public spaces, in streets and squares in the city centre, best explored on foot on trails like the sculpture trail „Skulpturenweg“.

The Sculpture Trail – incorporating works by Bernd Goehring, Ulrich Rückriem and Bruce Nauman, amongst others – criss-crosses through the town centre. Original fountains and statues adorn and enliven the streets and squares of the pedestrian zone.

The international vocal festival STIMMEN is a real highlight of the town's cultural calendar. It takes place every year in July. Since 1994, the festival has been transforming Lörrach into a centre of vocal artistry and bringing Mediterranean flair to the streets. Besides exceptional international stars from popular music, it is the less spectacular, the more quiet and focused concerts that really attract visitors (www.stimmen.com).

For nature lovers
Rötteln Castle towers over the town and is a must for all nature explorers. From June to August, the open-air theatre draws in visitors to watch performances of the Burgfestspiele festival with the castle ruins as a backdrop.

Lörrach Three Countries Museum offers a permanent exhibition on the three countries as well as themed temporary exhibitions so that there is always something interesting, historical and new for visitors. St. Ottilien Church in Obertüllingen was built on a striking spot here back in 1113. The church is also one of the many „Mythical places on the Upper Rhine“ (www.mythische-orte.eu).

The binational „Tüllinger Wine Trail“ also runs along the hills from Lörrach via Riehen (CH) and Weil am Rhein (www.derweinweg.de), and links to the „Markgäfler Winweg“, which begins in Grenzach. Numerous regional and national footpaths, hiking trails and cycle routes begin and pass through Lörrach. Examples include the WEST TRAIL or the Upper Rhine Roman Cycle Path.

Lörrach – an ideal starting point for all kinds of adventures!

Bad Dürrehim

Bad Dürrehim is not just an attractive spa town and the first CLUB location in Germany, it is also the only town in Baden-Württemberg to bear the Premium classification as a „Brine health spa“, „Kneipp resort“ and „Climatic health resort“. **Culture:** A town with history: Visit the historical locations of salt mining, the „Narrenschopf“ Carnival Museum or the Local History Museum. Or discover the town by way of one of the many themed tours. A number of daily events and many large events provide other options throughout the year.

Health and exercise: A beautiful Kurpark with tennis, minigolf, billiard golf, FitnessparKUR spa and the Prädikatsallee with lots of Kneipp, climatic health and brine treatments. The spa and health centre Solemar is a real highlight. It features a brine thermal pool, a Black Forest sauna, a spa area and a Dead Sea salt grotto. You can take one of the lovely cycle paths and hiking trails to get into the nearby countryside. eBikes are also available to hire. **CLUB+:** Free entry to Solemar spa and lots more – with the new CLUB+ guest card. You automatically receive this card upon arrival at one of the participating CLUB+ hotels or guest-houses. Daily free entry into the Solemar spa, as well as free entry to the various

museums in the region, minigolf and billiard golf also free, amongst other things.

Königsfeld

The natural forest and solar community of Königsfeld lies on the German Clock Route („Uhrenstraße“) and owes its title as a climatic health resort to its unique location on a sheltered elevated plateau. It is an ideal place to recharge the batteries and begin each day with new energy. **Nature and sport:** tennis court, tennis school, SoccerCenter, 18-hole golf course, solar, bathing and NaturSportPark with 50 m waterside, children's pools, mountain biking and BMX trails, street hockey and street ball courts, climbing paradise and lots more, water treading pools, 250 km hiking trails, ski slopes, cycle paths, footpaths past farms and mills, a SunExperienceTrail and Planet Trail, Nordic walking park, climatic health resort eBiking, new golf course at the Kurpark. **Art and culture:** the Albert Schweitzer Haus, a forum for information and communication, with an exhibition documenting the life and works of the Schweitzer family in their former home. **Health and well-being:** three clinics, Kurpark, medical facilities and the „CuraVital – Centre for Complimentary Medicine“ with physiotherapy practice and Kneipp spa oasis to add to the natural conditions.

Villingen-Schwenningen

The town with equal Baden and Württemberg roots represents far more than outstanding quality of life. **Tour:** Villingen has numerous sights and attractions, like the historical town centre with the mighty fortified and gate towers, the Late-Romantic cathedral „Our Lady“ dating back to 1220 with the Münsterbrunnen fountain, the intact city walls etc. And in **Schwenningen**, which was once the largest clock town in the world, time hasn't stood still either: modern shopping centres invite you to browse. And those who would rather be out and about in nature can soothe their souls in the Schwenninger Moos moor, and relax their feet with a dip in the Neckar spring. **Out and about in nature:** Villingen-Schwenningen brings the nature to you and offers a great deal of green diversity. You can enjoy active recuperation on the cross-regional footpaths, hiking trails and cycle routes in and around Villingen-Schwenningen. One example is the certified premium hiking trail „Waldpfad Gropptal“, which features idyllic sections through woodland, or Salvat game reserve, which offers unique views of the Black Forest.

Laufenburg – Two countries, one city: The magic of winding stone alleys, gates, and towers with small squares, fountains, and fortress ruins rising above the tightly packed classic buildings in the old town – this is the picturesque border town of Laufenburg.

Hardly any town on the Upper Rhine has been captured in image as frequently as Laufenburg, which has been both German and Swiss since being separated by Napoleon.

Laufenburg continues the traditional Shrove Tuesday festivities still today, and invites you to join the many other cross-border experiences: the culinary weeks, the „flowing border“ cultural days, and salmon adventure tours. You'll experience a city tour of a special kind with Count Hans! Additionally, our barrier-free „Pearl on the Upper Rhine“ is handicap accessible. Moreover, the exciting landscape promises rest and relaxation: while hiking or on cycling and mountain bike rides along the Rhine Valley and in Hotzenwald.

The Müntertal Staufen holiday region lies among the Margrave Land's sunny hills and the peaks of the Southern Black Forest with Belchen (1,414 m), an impressive mountain. From the Mediterranean flair of softly rolling wine hills to impressive cliffs of Alpine character - every visitor can find their very own natural pleasures here. All five holiday towns have their own character, offering diverse recreational opportunities.

Müntertal is embedded in one of the Black Forest's most beautiful valleys and is the place for nature lovers looking for open, free countryside with many long, impressive views. You'll find the Baroque Monastery St. Trudpert to be architectural jewel in a picturesque valley. Belchen soars majestically above all of this, to many it's the most beautiful Black Forest mountain. Treasure hunting in the visitor mine, busy bees in the Beekeeping Museum, original country living in the Black Forest House 1902 - one week will hardly

suffice to discover the unhidden and hidden treasures of Müntertal.

Crowned by a famous castle the **Faustian town Staufen** surprises with its rich cultural tradition and an outstanding cultural program through the year. A stroll through the winding alleys in the carefully preserved Medieval city permits you to follow the traces of the notorious alchemist Dr. Faust, who made a pact with the „the most devilish of all devils,“ Mephistopheles in his desperate search for a suitable manufacturing process for gold. Guaranteed sulfur-free, you can then enjoy a slice of Black Forest cherry cake at one of the well-renowned cafés.

Ballrechten-Dottingen plays with the charm of a traditional wine village and, with 200 ha of vines, is one of the Margrave Land's important wine communities. On a walk over nearby Castellberg hill, you'll delve into this wine tradition while enjoying the panorama over the Rhine valley all the way to the Vosges.

In **Ehrenkirchen** and **Bollschweil-St. Ulrich**, this holiday region approaches Freiburg. Both round off the valley with ornate townscapes. Wine-making is another highlight here with Ehrenstettens Ölberg and its famous chapel. There are over 100 km of hiking and MTB trails connecting the diverse terrain between the Black Forest, Hexental, and Schönberg.

We'll be happy to assist you in planning your visit and to put together a personalized offer for you. We look forward to welcoming you!

Hotspot for gourmards, classic car lovers, wellness and nature enthusiasts

Eight Michelin stars and three of the best ***** hotels in Germany embedded in village idyll - Baiersbronn on the edge of the Black Forest National Park is among the culinary hotspots in Germany, offering both rest and relaxation in a majestic setting. However, the glimmering cirque lakes, secretive moors, thick forests, and broad valley also invite guests of very personal 3- and 4-star hotels, B&Bs, and holiday flats to come enjoy walks and hikes.

Or to enjoy impressive excursion drives - such as the Baiersbronn Classic, the Black Forest Rally for bon vivants. This event highlight held in September features some 100 teams with high profile automotive classic models up to the 1970s taking on challenging routes over three days with numerous special stages during which only mechanic clocks are permitted. High-class rest stations and an exquisite gala evening round off the event. There are two tailored packages with route suggestions and classic car cruises for spectators and passionate drivers looking to experience the Baiersbronn Classic personally.

Come experience Baiersbronn, a region for good living!

Freudenstadt in the Black Forest – Simply the better climate!
 Whether you visit the Freudenstadt region for recreation or for culture, your free time will be well spent here.

Germany's largest market square with 50 water fountains is a centre of attractions for sightseeing, shopping, culture and delight, as well as a starting point for cycling enthusiasts. The city's high plateau, surrounded by the Northern Black Forest, offers a playground for athletic activities. Together with the Loßburg holiday region, No. 1 on the Kinzig River, we make biker hearts race with firm ascensions, idyllic valleys, and solitary trails. If it is the Tour de Murg to Rastatt, the Kinzig Valley Bike Path to Offenburg, or the Black Forest Panorama Trail from Pforzheim, the Freudenstadt region has more than 800 km of posted bike trails with breath-taking vistas, ideal for highly technical cyclists heading up to the heights of the Black Forest as well as for families cycling through the sunny tributaries.

In addition to traditional outdoor sports, we also offer young trendy sports like paragliding and GPS hiking. The new e-bikes are particularly popular, which can be used to explore the region on signposted cycling trails in a relaxed manner.

Those who enjoy hiking without a heavy pack can go on the „Fährte des Rothirches“ trail, the program „Mit dem Holzmittel auf Du und Du,“ or simply spend hours on the most beautiful hiking trails in the Freudenstadt region. Take a stop on your way in Alpirsbach and delve into more than 900 years of history at the Alpirsbach Cloister and enjoy the beer at the traditional cloister brewery. Then continue on to Pfalzgrafeweiler to an original Black Forest smokehouse - visit with hardy ham tasting - feel, smell, and taste the Black Forest.

After a day in the region's healthy climate, we invite you to the 1950s-style Freudenstadt Theater - whether theater with television stars, entertaining children's theater, or musical events - our cultural program is as diverse as life itself!

A special treat: With the KONUSS Black Forest guest card, you can ride free on all buses and trains throughout the entire Black Forest. And since February 2014, we present our guests with Black Forest Plus, a guest card you can use to visit over 100 holiday attractions - without standing in line and without purchasing a ticket - available starting the 2nd night's stay.

... simply the better climate!

Offenburg – lively and lovely
Offenburg is a town with many sights to discover: The baroque town hall, the Königshof, the Kreuzkirche church or the wonderful façades by the fish market combine centuries of architectural gems. Attractive shops, cosy streetside cafés and a diverse weekly market all invite you to visit.

Offenburg wine town: Offenburg, in the heart of the Ortenau wine paradise, attracts visitors with its fine wines. Top-quality grapes grow on the doorstep. Vineyards flooded with sunlight, views of the Rhine spanning to Strasbourg cathedral and the Vosges – even Goethe raved about the Ortenau.

Leisure: Cyclists will also find the perfect conditions: You can mountain-bike up steep Black Forest slopes, or enjoy a comfortable bike ride along the Rhine. The Wine Hiking Trail snakes through the idyllic vineyards. In addition, Offenburg likes a good celebration: from the Fasnacht carnival to Ortenau Wine Festival in September. Meanwhile, Offenburg reveals its romantic side during the Advent period: The town centre is illuminated by hundreds of Christmas trees, and the Christmas market features a large ice-skating rink for truly special experiences.

Pforzheim – the golden town

Pforzheim made its name almost 250 years ago with the founding of manufacturing for jewellery and clocks, and this „golden town“ past can still be experienced at many places in the town.

The **Pforzheim Jewellery Museum** – the only museum of its kind dedicated to the history of jewellery in the world – boasts around 2,000 exhibits covering a period of five millennia. In the **Schmuckwelten**, otherwise known as the largest retailer of jewellery and clocks in Europe, you can enjoy a quite special shopping experience; meanwhile the **Technical Museum of the Pforzheim Jewellery and Clockmaking Industry** is due to reopen after refurbishment in April 2017 and displays how jewellery and clocks were produced using historical machinery. In 2017, Pforzheim will celebrate **“250 years of being a golden town”**.

Celebrations in the town will include unique exhibitions and spectacular live acts, with design and jewellery art, as well as lots of music and theatre. There are many other attractions, including the Gasometer Pforzheim with the world's largest 360° panorama by the artist Yádegar Asís, which spans some 3,500 sq m and can be admired from a 15-metre-high viewing platform.

Experience NATURE
Rich-forested valleys and gentle rolling green hills: The six districts of Schramberg are situated in the heart of very varied natural and cultural landscapes. The village of Tennenbronn spans up to 940 metres above sea levels, and is set in the heart of meadowed valleys, forests and small plateaus. Here, families enjoy holidaying on the farm; walkers love the diverse Black Forest landscape; and mountain-bikers adore the challenging trails. Talstadt lies just a few kilometres away. At 400 metres above sea level, a settlement has expanded along the River Schiltach and its side valleys. Nature and culture can be perfectly combined here. Beautiful footpaths lead to picturesque castle ruins and rock formations, or you can walk through the artistically designed Park der Zeiten. The four other districts of Schramberg – Sulgen, Waldmössigen, Hellingenbronn and Schönbronn – lie on expansive plateaus, in the heart of fertile fields and shade-giving islands of trees. Perfect for everyone who likes a varied holiday: You can enjoy a relaxed bike ride, a comfortable walk or a nice stroll.

Fascinated with TECHNOLOGY
The Auto & Uhrenwelt Schramberg (Car & Clock Museum) brings the history of time to life in four different themed worlds. This is the place in the Black Forest to trace the history of the clock to that of the automobile. You can enjoy a spectacular overview of international car manufacturing thanks to the Steim private collection of cars. Meanwhile, you can feel the spirit of bygone eras in the „ErfinderZeiten“. You gain an insight into the history of time, the world of vehicles and everyday life from the end of the war to the 1970s. Visitors can also look forward to a journey back in time with regards the clock. Next door, in the H. A. U. Diesel Museum, you can experience a fascinating symbiosis between industrial architecture and power plant technology. The world's largest Spur II collection will get hearts beating a little faster in the Black Forest Railway Museum.

Award-winning FAMILY HOLIDAYS
Families are most welcome here in Schramberg – a fact that is obvious wherever you look. It is not just the town but several farms, a holiday village and a restaurant that have all been distinguished as being especially family-friendly. During the holiday season, there are thrilling activities which turn the forest and meadows into children's play rooms. Feeding the animals on the farm, walking through a herb garden, the „Animals of the Forest“ geocaching tour, or on a discovery tour with the explorer's rucksack – there are plenty of ways of getting up close to nature. Meanwhile, the swimming pools, a farm experience and an illuminated toboggan slope (in the winter) all offer something different.

Holidays for globetrotters: In the southernmost part of the Black Forest, where gently rolling hills rise from the Rhine Valley to become massive low mountain ranges, you can find a region full of contrasting landscapes and cultural diversity. The holiday region of the southern Black Forest spans across elevations of between 285 and 1,400 metres above sea level, and, with its historical cities, diverse nature and leisure attractions, is far more than „just“ the Black Forest for old and young, whether it is peace and quiet or an active holiday that they are seeking.

Town ... Picturesque old towns right by the Rhine and small modern towns with an innovative character and lively restaurants – these are the region's meeting points. From the longest covered wooden bridge in Europe to medieval architecture to popular shopping streets, the cities in the holiday region provide numerous draws for every taste.

Country ... Life on the land, Alemannic traditions and traces of a shared history can all be discovered in the places within the holiday region.

Various farming museums and open-air museums, along with festival parades and traditional events, demonstrate the importance of and pride that the people take in their own culture. You can also experience this at dose quarters with the themed guided tours with the "Nachtwächter" and "Graf Hans", or at the annual open-air performances at the Klausenhof.

River ... In the wildly romantic Wehra Valley and the adventurous Murgtal Canyon, you can wander through tunnels in the rocks and past waterfalls, along the courses of the rivers to where they flow into the Rhine – a place where watersports fans get more than their money's worth. It doesn't matter whether you discover it actively on a guided canoe tour or comfortably on a passenger ship, the picturesque region where Germany meets Switzerland is ideal for admiring from the water itself. Water – the element that connects all of the places in the holiday region – also invites you to relax, for example in some thermal baths, or in one of the many outdoor pools in the summer months.

... active experiences! Walking, Nordic walking, touring biking, mountain biking, snow-shoe walking, skiing, ice-skating and cross-country skiing, climbing, touring the waterways, horse-riding – you can do almost anything in the holiday region! You can cross-cross the diverse backdrops with their legendary castle ruins, idyllic villages and magnificent viewpoints on the well-signposted network of footpaths and numerous premium and themed hiking trails, such as the "Schluchtensteig" or the "Südschwarzwaldweg".

FERIENREGION WUTACHSCHLUCHT

Wutach Canyon – a paradise for walkers and holidaymakers

For friends, admirers and connoisseurs Broad sunny terraces suddenly descend into deep ravines; roaring wild waters forge their way through jagged rocks, huge pine trees cling onto damp jagged rocks with their huge roots. And just as quickly, aromatic canyon forests turn into dry meadows full of gentian and pasque flowers. Orchids grow alongside plants from the Mediterranean; water ouzel breed alongside kingfishers.

A virgin forest canyon to discover on foot – Gorge-walking: earthy and wild
 The Wutach is the last untamed torrential stream in the German low mountains.

It is an island of untouched nature in the heart of an old cultural landscape. It truly lives up to its name as the snows melt away. The high waters create piles of logs, branches and debris. The Wutach Canyon nature reserve incorporates the Wutach Canyon, Wutach Cliffs, Gauchach-, Haslach- and Röttenbach gorges, as well as Lotenbach Ravine. Please observe the signs to help preserve the natural environment. The protected animals and plants will be grateful.

Walking with the ranger:

From July to September, the Wutach ranger takes interested walkers through the Wutach Canyon from Boll to the Wutach mill. Please phone +49 7703 / 919412 to book your place.

Safety in the gorge:

Blumberg – dwell and experience. Spend active yet recuperative days in the state-accredited health resort and enjoy the pristine nature offered by Blumberg and its idyllic location. Numerous different leisure activities guarantee that you will enjoy a varied holiday in Blumberg. Enjoy a walk through the wildly romantic Wutach Canyon with its impressive rock formations, or float through the Black Forest on a two-wheeled Segway. **Sauschwänzlebahn steam railway.** The Sauschwänzlebahn is a stretch of railway straight from a famous German children's book. The tracks snake through the landscape, tunnels cut through the mountains, valleys are crossed on stately bridges, and a steam train runs on the rails. The Sauschwänzlebahn allows you to enjoy some nostalgia whilst surrounded by beautiful nature. The stretch of railway spans 25 kilometres from Blumberg-Zollhaus to Weizen, crossing four bridges, passing through six tunnels, and then travelling back again. You can combine a trip on the Sauschwänzlebahn with a walk along the „Sauschwänzle Trail“. The premium hiking trail and Black Forest gourmet path takes you through the rugged natural landscape of the Wutach Cliffs to the stop at Lausheim-Blumegg, where you can then travel back with the Sauschwänzlebahn steam train.
